

Department of Innovation and Technology  
CITY OF CHICAGO

**MEMORANDUM**

**To:** The Honorable Carrie M. Austin  
Chairman, Committee on the Budget and Government Operations

**From:** Danielle DuMerer  
Commissioner & CIO  
Department of Innovation & Technology

**CC:** Deanne Millison  
Mayor's Office of Legislative Counsel and Government Affairs

**Date:** **October 26, 2017**

**Re:** Request for Information from Annual Appropriation Committee Hearing

**ID#:** 06-01

---

The attached information is in response to questions posed at our department's hearing on October 24, 2017 to discuss the proposed 2018 budget.

Alderman Ervin asked for an explanation of the IT Directors range of pay.

- While employees may share the IT Director title, associated job tasks may vary. IT Directors with greater responsibility or more specialized skill sets are compensated at a higher rate.
- Additionally, some functions, including information security or data science, are less available in the marketplace and therefore higher salaries assist with recruiting for these in demand roles.
- Further, knowledge, skills, and extent of professional experiences are key factors in determining an IT Director's salary.
- Historically, as job positions have been vacated, the available positions have been used to fill open positions based on the department's needs. The vacated position may not have always been used to fill the same role or title.

As always, please let me know if you have any further questions.
